Job description

Please read the entire announcement carefully for detailed information on qualifications and application procedures.

The Honors Internship Program is a 10-week, paid internship for undergraduate and graduate students. While exploring our exciting career options, you'll work side-by-side with FBI employees at one of our FBI headquarters locations or in one of our 56 field offices located across the country. While you're here, you'll be exposed to the unique environment and operations of the FBI, and will have experiences you can't find anywhere else. The FBI is seeking applicants from a wide range of academic areas, and you'll be placed in assignments based on your educational background, skill sets and unique life experiences.

As part of the application process, you will be asked to identify your preferred work location(s). The application will allow you to select up to three (3) preferred work locations. If you are only interested or available to work in one (1) location, you should only select one location and leave the other two selections blank.

Relocation and housing costs will not be provided. If you receive an offer to intern at your selected preferred work location, but are no longer available to work at that location, the offer may be rescinded before the start of the internship program.

To find the closest field office to you, visit the Locations page. The FBI has 56 field offices around the country, each with additional satellite offices.

Headquarters options include:

- Washington, DC (Main Headquarters and Washington Field Office)
- Quantico, VA (Critical Incident Response Group; Training, Laboratory and Operational Technology Divisions)
- Winchester, VA (Records Management Division)
- Clarksburg, WV (Criminal Justice Information Services)
- Huntsville, AL (Terrorist Explosive Device Analytical Center)

If you select Quantico, VA; Clarksburg, WV; Winchester, VA; or Huntsville, AL, you must have your own transportation to and from work, as no public transportation is available in these areas.
