GameFace Tutoring - Wayne, PA 19087

Math Tutor

\$20 - \$40 an hour - Part-time

GameFace Tutoring is hiring.

We are looking for a math tutor primarily for grades 1 - 8 (although the more you can do, the better). Our ideal candidate would be an education math major with experience of Singapore Math, but we will consider all applicants with relevant experience.

All tutoring is done at our location in Wayne, PA. Sessions are 45 minutes long and start at \$18 per session (\$15 just to sit in and watch), and raises come quickly. You can pretty much set your own hours but we ask that you give us times that you can do on a weekly basis.

When contacting us, please include something more than just your resume. Let us know why you're qualified, how interesting kids find you, and anything else that lets us know you're fun. It's important to us to keep a fun atmosphere and we want to make sure you'll add to it. Seriously... let us know you read this and say something to show how interesting you are.

To get a feel for how things work, check out our website at GameFaceTutoring.com.
