Graphic Design Intern

Triumph Group – Berwyn, PA

Job Description

Triumph Group designs, engineers, manufactures, repairs and overhauls a broad portfolio of aviation and industrial components, accessories, subassemblies, systems and aircraft structures. We partner with original equipment manufacturers (OEMs) and operators of commercial, regional, business and military aircraft worldwide, to provide products and services that solve their hardest problems. So whatever the part, component or complexity of assembly, Triumph is committed to quality, service and meeting the specialized needs of each customer.

Triumph participates at all levels of the aerospace supply chain – from single components, to complex systems, to aerospace structures and their contents. We provide solutions for the entire product life cycle of an aircraft – from raw material to aftermarket service. Our unique ability to integrate a broad range of products and capabilities is our competitive advantage.

The Graphic Design Intern plays a critical role in developing graphic design and artwork to support a corporate wide communications and marketing strategy. The Intern supports the Communications and Business Development Departments with responsibilities that will promote the reputation and brand identity of the company worldwide. Specific work will include corporate branding material, tradeshow material and selected community relations programs. The role is designed to support consistent and up-to-date content and branding integration across the organization.

- Develop, prepare, maintain and produce graphic art
- Web design
- Maintain and organize project folders with final artwork, images and text files
- Oversee print or production jobs
- Assist with content development for Triumph’s corporate website and social media outlets
- Assist in preparation of internal communications such as templates, company profiles, FAQs, bios, newsletters, email blasts and other company communications
- Coordinate or produce photo and video content for extra/intranet as needed
- Overall assistance with communications content and creative design
- Routine projects, often on a quick turnaround basis
- Bachelor’s degree in Fine Art, Design, Marketing, Communications or related field (or currently attending).**
- Experience in marketing, communications, PR, graphic design helpful
- Proficient in Adobe Creative Cloud (InDesign, Illustrator, PhotoShop and Adobe Acrobat)
- Proficient in Microsoft Office (Word, Excel, PowerPoint and Outlook)
- Overall knowledge, skills, and abilities that reflect leadership, organization skills, communication skills, teamwork, creativity, and visionary Forward Thinking
- Credibility and confidence to interact with senior leadership team members

Approved For Posting
Office of Student Life

- Solution-oriented and adept at multi-tasking across competing demands
- Communicates effectively and uses sound judgment under pressure

Revenue \$2 to \$5 billion (USD) per year

Competitors Unknown

If it's between nose and tail, Triumph Group's got it covered. Triumph's companies design, engineer, manufacture, repair, and overhaul a myriad of aerostructures, and aircraft components and systems for customers that include commercial, general, and military original and aftermarket equipment manufacturers. The company has three operating segments including Aerospace Systems; Aftermarket Services (maintenance, repair, and overhaul); and Aerostructures (makes metallic and composite aerostructures and structural components). It has 64 facilities -- most are in the US, but some are in France and the UK. US customers account for 86% of sales; Boeing is at the top of the list, generating 45%.
