

CHE-0460 Internship

Supervised work experience usually at an industrial or research site. The type of work, period of work, and means of evaluation will be arranged by the work supervisor in consultation with the student's major advisor. Open to junior and senior chemistry majors. 4 credits.

CHE-0500 Science and Society Seminar (Honors)

An interdisciplinary seminar on a special topic in an area of science at the intersection of other disciplines such as social science, business, ethics or public policy. Emphasis is placed on advanced research skills, writing, and oral presentation. The course is open to all juniors and seniors regardless of major who have a GPA of at least 3.5 or permission of instructor. 2 credits.

DANCE***Faculty***

Renee Banson, Adjunct Instructor, Dance

Course Descriptions: Dance**DAN-0203 Dance Movement**

An introduction to dance covering basic techniques with exercises in ballet, modern, jazz, and ethnic dances. Emphasis is on body control and the student's comprehension of the body's capacity for movement. No prerequisite. Offered in fall semester. 2 credits.

DAN-0204 Creative Experiences in Dance

Improvisation and composition in abstraction and design, themes, and character studies with music rhythms, poetry, and prose. No prerequisite. Offered in spring. 2 credits.

ECONOMICS***Degree Offered***

B.S., Bachelor of Science in Economics

Faculty

Eleanor Gubins, Assistant Professor, Economics and Political Science
Discipline Chair, Economics

The Economics major introduces students to the content and techniques economists use to understand problems and issues such as unemployment and inflation, growth, poverty, discrimination, environmental issues, effective markets, and other issues of the global economy. Economics is a quantitative discipline, and students are trained to use analytic and computational
