This syllabus is provided to you as a means of conveying what you should expect from this course. It outlines the responsibilities of the instructor in conducting the class – the course content, planned scheduled of classes and assignments, grade components, and method(s) of

grading. It also outlines your responsibilities as a part of this class. By remaining in this class, you indicate your acceptance of your responsibilities as a student and agree to the terms specified in the syllabus.

Note: The instructor reserves the right to adjust the course schedule and content during the semester in order to accurately reflect the progress being made by the class. This may result in modifications to assignment and exam due dates and/or course content.

I. Student Learning Outcomes

Upon completion of this course, students will be able to:

- A.** Integrate and apply counseling skills, theories, and knowledge within a clinical mental health setting to assist clients in addressing their mental health needs.
- B.** Establish and maintain counseling relationships consistent with legal and ethical standards (e.g., ACA and AMHCA) in order to effectively provide counseling services to clients while considering mental health needs from a developmental and multicultural perspective.
- C.** Demonstrate a comprehension of factors affecting the therapeutic relationship with clients, including theoretical orientation, counselor characteristics, client characteristics and career and personal goal setting.
- D.** Exhibit a quality awareness of the need for ethically responsible intervention techniques such as individual, group, and career counseling and which of these potential intervention(s) may best serve client needs.
- E.** Conduct, interpret, and communicate assessment information to clients in crisis and non-crisis situations to create a comprehensive treatment plan with appropriate goals and objectives.
- F.** Evaluate potential areas for improvement within the therapeutic relationship through research techniques, self-assessment, and consultation to employ best practices and advocate for client needs.
- G.** Build relationships with colleagues within the work environment through consultation and supervision for client support as well as clinical mental health counselors outside of the immediate work environment to understand community resources and referral processes.

A. **Written Case Presentation (1):** Each student will make a presentation on one individual counseling session or one group counseling session. The presentation will consist of the following:

1. Presenting Problem
2. Developmental History
3. Current Environment, consider systems perspective
4. Career Implications of Mental Health Needs
5. Counseling Goals, including objectives for each (individual counseling, group counseling, referral), consider treatment prevention or intervention (developmentally appropriate)
6. Counseling Approaches, i.e. counseling theory and techniques
7. Clinical Impressions, including specific symptomatology within DSM and other forms of assessment
8. Multicultural considerations, i.e. gender, age, disability
9. Efforts to understand your client's presenting problem, i.e. research and consultation
10. Reactions to the client and experience as client's counselor, i.e. plan moving forward
11. Ethical Considerations, i.e. personal biases, approach, interactions
12. Questions for the group.

- For a **group session**, written information should consist of a "Group Counseling: Session Analysis" as well as an overview of the purpose of the group and its objectives. A transcription of the 15-minute recorded session to be presented will be required.
- In class, give an overview of the client or group, highlighting major issues and concerns (25-30 minutes)
- Audio or video recording presentation (15 minutes). Select 10 minutes of the tape that you want critiqued. The other 5 minutes will be selected at random. Bring a tape recorder, laptop, tablet or any equipment necessary for the presentation e.g. speakers, cables. **Try out your recording in advance to assure you can operate the equipment.**

- Critique/discussion/feedback (15 minutes). If it is *impossible* to record due to site issues, please contact me in advance. The expectation is that you work your hardest to conduct an audio recorded session.
- Client information and students' therapeutic skills will remain **confidential**. All written information about the client will be returned to the student presenter for shredding.

Student Learning Outcomes: A-H

Total Points: 25-Points

- B. Recorded Presentation Transcription (1):** Students will present a 10-15 minute audio or video recorded counseling session with a client for class discussion and analysis. Students will be required to complete a transcription of the 10-15 minute counseling session for further in-depth analysis. To successfully complete this assignment, students will need to do the following:
1. Bring a tape recorder, laptop, tablet or any equipment necessary for the presentation e.g. speakers, cables. **Try out your recording in advance to assure you can operate the equipment.**
 2. Client information and students' therapeutic skills will remain **confidential**
 3. Provide a background of the client including identifying characteristics as well as the presenting problem
 4. Discuss theoretical framework approach as it pertains to this session, including specific skills used connected to the theory or theories
 5. Complete a transcription of the counseling session and distribute to the class
 6. Identify areas in which the student would like to receive peer feedback on the recorded session for future planning and approach by posing 2 questions.

Student Learning Outcomes: A-E; H

Total Points: 25-Points

- C. Informal Recorded Presentation (1):** Students will present one video or audio-recorded client sessions to be reviewed in class. Before arriving to supervision on the date of the scheduled review of a recording, students will select a 15-minute period of the recording

for review, i.e. a portion in which the student experiences difficulty or demonstrates skill. To successfully complete this assignment, students will need to do the following:

1. Bring a tape recorder, laptop, tablet or any equipment necessary for the presentation e.g. speakers, cables. **Try out your recording in advance to assure you can operate the equipment.**
2. Client information and students' therapeutic skills will remain **confidential**
3. Provide a background of the client including identifying characteristics as well as the presenting problem
4. Discuss theoretical framework approach as it pertains to this session, including specific skills used connected to the theory or theories
5. Select a 15-minute period of the recorded session to review
6. Identify areas in which the student would like to receive peer feedback on the recorded session for future planning and approach by posing 2 questions.

Student Learning Outcomes: A-E; H

Total Points: 25-Points

D. On-Site Supervisor Evaluation: The student will receive weekly supervision from their on-site supervisor. The college supervisor will assess the completion of this goal by doing the following:

1. Reviewing monthly supervision hour logs
2. Collaborating with the site supervisor on a regular basis through phone or email
3. Identifying discussions that connect to site supervisor comments during peer processing within the supervision session
4. Reviewing the evaluations of the site supervisor at the mid-point and conclusion of the semester (formative and summative assessment)
5. Conducting a site visit to meet the site supervisor in-person

Student Learning Outcomes: A-H

Total Points: 15-Points

E. Documentation and Participation (Course Requirements): Students will submit the following paperwork and engage in activities throughout the course of the semester:

1. Complete Student Self-Evaluation as Pre & Post-Course Evaluation based on the Integrated Developmental Model
2. Submit by First Class Session:
 - Internship Agreement
 - Clearance Forms / Disclosure Statement
 - Site Supervisor Fact Sheet
 - Liability Insurance (Student Members ACA – Free)
 - Affiliation Agreement with Internship Site
3. Monthly Internship Log
 - **Individual Counseling Hours** with Weekly Progress Notes (10)
 - One Client: Minimum of 5-Sessions
 - **Group Counseling Hours** with Group Analysis Notes (10)
 - **Professional Development (P.D.) Hours**
 - Students must submit verification of professional development hours through a certificate or a printed flyer signed by the site supervisor with hours documented
 - Journal Articles can fulfill Professional Development Hours
 - Journal Article Report Form: This task encompasses the reading of a scholarly article from a reputable journal publication, i.e. Journal of Counseling and Development. The Report Form should include journal title, article title, author(s), a brief synopsis of the article, and an explanation of how information from the article could be implemented to improve counseling practices (1 Article Report = 1 Hour of P.D.)
4. Group Supervision Engagement
5. Submission of Clinical Notes (Individual and Group)
6. Informed Consent Forms for Counseling Recordings
7. Site Policy Identification (Suicide Policy and Substance Abuse)
8. University Supervisor Site Visit

Student Learning Outcomes: A-H

Total Points: 10-Points

V. Final Grade Scale

Note: All students in the Graduate Counseling Program MUST receive a grade of **“B” or higher**. If a student fails to do so, **he or she must repeat the course before continuing in the program**.

Please see the SGPS Academic Catalog or Graduate Counseling Student Handbook for additional information about course grades and academic integrity:

[SGPS Academic Catalog](#)

*C+	77 – 79
*C	73 – 76
*C-	70 – 72
*F	70 and Below

Students are responsible to become familiar with and will be held accountable for the information on the following topics that can be found within the Academic Catalog.

Attendance Policy: Timely, consistent attendance in class has been shown to have a direct correlation to student performance. Missing classes causes students to fall behind in the course material. The policy for this class is that undocumented absences and tardy attendance are unacceptable. Absences are permitted only in cases of illness or other legitimate causes (family emergency, death in the family, etc.). Official notice that a student has presented documentation for an absence is sent from the Office of the Dean of Students to faculty on a timely basis. In cases of a documented absence from a class, the student has both the opportunity and responsibility to make up all class work missed.

Students are allowed documented absences equivalent to one week of classes for any course in which they are enrolled. This amounts to three absences for a class that meets on MWF schedule, two classes for courses meeting either on a TR or MW schedule, and one class for labs and classes that meet only once a week. Absences are counted from the first day of class.

Entering the class late or leaving the room during class interrupts the classwork in progress and is disruptive to the learning process for students who are trying to learn. Class attendance is required, and roll is taken each period. Serious tardiness may result in a failure of the course.

Academic Integrity: Academic integrity is important to the intellectual climate at Rosemont College. Violations of academic integrity cannot be tolerated and may result in the student’s failure in a course and/or suspension or expulsion from Rosemont College. Academic dishonesty

includes but is not limited to: plagiarism; fabrication of data, information, or citations; multiple submissions of the same work in different courses; and cheating on exams or assignments. Cheating of any kind WILL result in a zero on the work in question and a letter grade reduction in the course grade after the student's grade is calculated using the zero on the work in question. At the instructor's discretion, it may also result in failing the course and/or reporting of the incident to the administration for further action.

Class Assignments: Assignments that are not completed by the stated deadline will not be accepted, unless prior arrangements are made with the instructor. Such circumstances must be supported by written documentation from an acceptable third party.

Communications: Changes in schedules, assignments, guidance, etc. will be communicated only to your Rosemont e-mail address. E-mail is the preferred way to communicate with the instructor and must be sent to the e-mail address listed on the front of this syllabus.

Disability Statement: If you have been approved for accommodations under ADA/504, please speak with the professor outside of class so that it is certain that all accommodations are provided promptly and completely. If you have not yet been approved for accommodations under ADA/504, but believe you might be entitled to them, please contact the Dean of Students in the Student Life Office at extension 2400 immediately. It would also be wise to speak with your professor, since temporary arrangements may be made under certain circumstances.

Student Concerns: Students who have any course-related concerns should talk directly with their faculty member prior to the next class meeting. If a mutually acceptable resolution cannot be achieved, the student is advised to follow the procedures outlined in the appropriate Student Handbook.

Cell Phone Use: In order to be able to receive campus-wide safety or weather alerts, cell phones may be left on vibrate only during class. Absent prior permission from the instructor, students may not acknowledge other messages or phone calls nor may they ever send or receive text messages during class. Please keep your phone hidden from the class and on vibrate only. Cell phones should not be used for internet purposes unless related to class assignments and instruction.

Use of Laptops or Other Electronic Devices: The use of personal laptops and other electronic devices during class sessions is strongly encouraged for the purposes of researching course material and engaging in classroom discussion. Students should not use their personal laptops for any other purposes during any class session. Failure to abide by this policy may impact your final grade.

Recording Lectures: Neither video nor audio recording may be made of any lecture in this course without the express consent of the instructor.

Inclement Weather: The Rosemont "snow number" is Montgomery County 342. Announcements of closings are also posted on the website and placed on the main college

number, 610-527-0200. Students are encouraged to register their cell phone or email address to e2Camplus on the iWay for cancellation notices.

Course Website: Information for this course, including, but not limited to, an electronic copy of this syllabus, is available through the course website located in the Rosemont College online learning portal (Canvas) located at <https://rosemont.instructure.com/login/canvas>. See your instructor if you have questions about accessing the course website.

Submitting Papers Electronically: Writing assignments for this course are to be submitted electronically via the course website.

LEVEL THREE			

	SELF AND OTHER AWARENESS	MOTIVATION	AUTONOMY
LEVEL ONE	Self-awareness is limited Self-focus is high Evaluation apprehension Unaware of strengths/weaknesses	High motivation High levels of anxiety Skill acquisition focus	Dependent upon supervisor Needs structure from supervisor Positive feedback Minimum direct confrontation
LEVEL TWO	Focuses more on client Empathy more possible Understanding client worldview more possible May become enmeshed, lose effectiveness May become confused, lose effectiveness Appropriate balance is an issue	Fluctuating, sometimes highly confident Increased complexity shakes confidence Confusion, despair, indecisive	Dependency – autonomy conflict Can be quite assertive, pursue own agenda Functions more independently May only want requested, specific input Other times dependent or invasive
LEVEL THREE	Accepts own strengths and weaknesses High empathy and understanding Focuses on client, process, and self Uses therapeutic self in	Stable motivation Doubts remain, but not disabling Total professional identity is the focus	Firm belief in own autonomy Knows when to seek consultation Retains responsibility
