TOTAL EXPENSES (box 1 above)	\$ 21,785
TOTAL AID (box 2 above)	- _____
BALANCE DUE before further aid	\$ _____
Minus Additional Loan/Parent Plus loan	- _____
Other Scholarship(s)	- _____
ESTIMATED OUT OF POCKET AMOUNT	\$ _____

Name: _____ Date _____

- ❖ The Orientation Fee is a one-time charge, billed in the fall semester only. All other fees listed are for the full academic year.
- ❖ Students are billed per semester, so half of each cost would be incurred in fall & half in spring (with the exception of the orientation fee).
- ❖ The BALANCE DUE is the amount for the full year that is not covered by financial aid.
 - Roughly half of the BALANCE DUE would be owed for the fall semester.
 - Payment plans are arranged by the Office of Student Accounts.
 - Families who need additional financing can use the BALANCE DUE as a starting point for determining how much to borrow through a PLUS or alternative loan.
- ❖ In addition to the costs listed on the front of this sheet, indirect costs (those not billed by the college) of approximately \$3418 are included in the student's cost of attendance in order to calculate financial aid eligibility. The indirect costs are estimated allowances for books, supplies, and personal expenses during the school year.
- ❖ Students receiving outside scholarships should notify the Office of Financial Aid of these awards as soon as possible.
- ❖ Keep this worksheet for your records.
